

TECHNICAL DATA

All the facts at a glance

TYPE

Heating Regulator | Article-Nr.: 6112

TECHNICAL DETAILS

- Convenient operation via app – wherever you are
- You can program your own heating times
- Extremely compact - no larger than a normal thermostat head
- Saves up to 30% heating costs
- Valve protection avoids damage to the valve
- Very sturdy housing
- Extremely low noise
- Manual operation by rotary wheel possible
- Battery operated (2xAA batteries, included in the package)
- Power supply - 100 to 205 V AC, 50/60 Hz
- max. connected load - 3600 W
- max. switching capacity - 16 A
- Radio frequency - 868.5 MHz
- max. transmission power - 0.73 mW
- Permissible ambient conditions - 0°C to +40°C at 30% to 75% rel. humidity

DIMENSIONS

Height 55 mm x Width 66,1 mm x Depth 74 mm

WEIGHT

193 Gramm

FASTENING

M30x1.5 threaded connector – fits many common radiators (e.g. Heimeier, Danfoss, Honeywell Braukmann, Honeywell MNG, Oventrop from approx. 1996 and others)
